MAKING THE MAGIC HAPPEN

Turn guests into chocolate lollipops. Our live carving technology turns your guests into sweet confectionery in just 5 minutes! We call them Lolpops because what's funnier than seeing your own head in chocolate?

Hire starts at £1,500 and includes:

- + 2 Candy Mechanics
- + all the chocolate

Create 20 lolpops an hour with 1 cart and up to 60 an hour with 3 of our carts.

AT YOUR EVENT

Let your guests experience the magic of personalised chocolate!

STAGE 1

SCAN

Guests take a seat at the Candy Cart and then, using our scanner, a mechanic will capture their 3D scan.

STAGE 2

CARVE

The scan then gets sent through to our Candy Carve. The guests watch as their heads appear in chocolate!

STAGE 3

PACKAGE

Lolpops are then packaged up using a card insert and presented in a clear box. See page 9 for more information on bespoke branding options.

A true delight having Candy Mechanics at the Guardian's Changing Media Summit 2017. Both us, our delegates and our speakers were highly impressed and we can't wait to work with them again soon!

Working with Candy Mechanics was a great opportunity to maximize the impact of our event. They helped us build a great atmosphere and the 3D chocolate heads got everyone excited. It was a sweet collaboration that we would recommend to everyone!
